Pull-out larder unit

- Maximum usage of space
- For narrow larder units
- Easy to adjust
- Available shelf width > **450/ 600mm**
- Variable interior height > **1900/ 2000mm**

A clear overview and easy access to your supplies. With a larder unit, you have space to store all of the dried goods for your household in a single, central cupboard with infinitely variable height adjustment shelving system, instead of having to gather your provisions from various drawers and other places. With just one pull, the cupboard's entire contents slide right out of the unit, affording you an excellent overview and quick access from both sides.
